HARRIMAN'S MEN

Union Pacific Stock Issue of \$100.000,000 to Be Put Through Today.

PAYS FOR IMPROVEMENTS

PERFUNCTORY MEETING TAKES PLACE AT NOON TODAY.

Representatives of E. H. Harriman. headed by Judge William D. Cornish, vice president of the Union Pacific road, and Alexander Millar, secretary of the Union Pacific, and Southern Pacific Railroad companies, at a special stockholders' meeting at noon today in all probability will authorize the issuance of \$100,000,000 worth of additional stock for the Union Pacific

The meeting will be held in the offices of W. H. Bancroft, vice president and general manager of the Oregon Short Line road, in the Deseret News building. The voting will all be done by proxy, except the votes for the stock owned personally by Judge Cornish, Mr. Millar and

others who attend the meeting.

The proposition to issue the additional stock was advanced by the board of directors of the Union Pacific at a recent neeting in New York, when today's special meeting of stockholders was called. It is expected that the voting of the issue today will be merely a perfunctory matter, as it is understood all necessary steps for the issue have already been tak en and as E. H. Harriman has ordered the issue and controls the majority of

the Union Pacific.
The books for the transfer of the stock. both preferred and common, were closed for the purpose of today's meeting May 29, and they will be reopened the morning of June 17 at 10 o'clock.

Judge Cornish and Secretary Millar reached Salt Lake yesterday. Neither would be interviewed to any extent last would be interviewed to any extent ast night. "I don't care to talk of railroads or railroading at present," was Secretary Millar's terse statement. Judge Cornish refused to say even that much. They didn't want to hear or talk about President Roosevelt's attitude toward the railroad companies of the country or of the attitude of anyone else toward the systems. Both men, with their secretaries, are stopping at the Knutsford. Judge Cornish is a tall, well built man with gray moustache. Secretary Millar is me dium height, portly and wears a grayish beard. Both men are cordial and suave and every inch of them spells success power and authority.

They spent the greater portion of yesterday closeted with Vice President Bancroft of the Oregon Short Line at the offices of the latter. It is expected they will leave here Sunday, Secretary Millar going west and Judge Cornish to Omaha.

Late Clerk of the Board of Public Works Says He Never Resigned.

W. H. Wilkins, clerk of the board of public works under the Morris administration, who claims he was illegally deposed from office, has filed a reply to the city's answer in his suit to regain Utah Fireproofing Company Says his position.

The original contention of Wilkins was that on Nov. 20, 1905, the council passed an ordinance making the term of the clerk of the board two years, and that he was appointed to the position by Colonel E. A. Wall, its chairman, and that his appointment was approved by the council and by Mayor Morris. He then asserts that on March 1. 1906, he was ousted from office by the present administration without any legal warrant, and F. R. Christensen appointed in his place. He asks for his position back again and his salary since he was deposed.

The city in its answer stated that Wilkins had never qualified for the position by filing a bond or taking the prescribed oath, and that he had reigned on March 1, and a copy of his letter of resignation was included in the

To this Wilkins replies that he had never been asked to take the oath of office or file a bond, and that he would have done it at any time had it been desired. He cites the practice for the ten years preceding as a precedent. In regard to the resignation, he states that he revoked it in writing the next day and before it was acted upon by the board of public works. He furthermore says Christensen was never confirmed by the council. Christensen is made a party to the suit by a stipulation filed with the reply

BOARD TO HEAR DEMANDS

City Engineer's Final Estimates Are Inadequate.

The Utah Fireproofing company, released by the council from completing its sidewalk contract entered into in 1905; is omplaining that the city engineer in his final estimates is not allowing enough money for the work actually done. In order to straighten out the matter. the company has been asked to have a representative present at the meeting of the board of public works to be held at 10.0 o'clock this morning to give the com-

Dany's side of the story.
When the council passed the resolution releasing the company from its contract, it was thought that the provision therein contained, which provided that the com-pany must accept the engineer's estimates or the amount due it, was strong enough, but later developments tend to show that t was only another blunder and that the city may be forced to stand suit before final settlement is reached. The work which the company left un

completed has been advertised for again, and if the Fireproofing company matter is not settled before this contract is let, there may be another complication in the
